### **DETAILED ACTION**

1. This office action is in response to the Amendment and Remarks filed 20 September 2005, in which claims 3-12 were presented for examination.

### ***Allowable Subject Matter***

2. Claims 3-12 are allowed.

The following is an examiner's statement of reasons for allowance:

3. Claims 3, 6, and 8 are allowed because the prior art of record does not disclose, teach or suggest the a navigation system comprising the combination: of a first and a second position determination unit determining a first and second position respectively, wherein the determining the position as a second position is more accurately than the first position determination unit; a first map and a second map the is more detailed than the first map; a display that displays one of the first and the second position on one of the first and the second map; and a controller that controls a relation between the position determination units and the maps to display one of the first and second positions on one of the maps in the display; wherein the controller selects one of the maps to display the position determined by one of the position determination units based on which position determination unit is used to determine the position, and wherein the controller prohibits using the second map to display the first position determined by the first position when the second position determination unit is unavailable and the first position determination unit is used to determine the position or
